After being here, there is no other place I'd rather go. With different kinds of treatments and staff, this place is very special. The staff, the treatment, the environment, all together blended as a magical recipe to get the best result: a mental and physical relief and well-being. Thanks to all of you for making me feel good.

I was in a serious motor vehicle accident in 2006. As part of my rehabilitation I have been attending the Shoreham Chronic Pain Clinic. The care and service has been amazing. The staff are courteous and professional. I recommend the Shoreham Chronic Pain Clinic as part of the overall healing process.
